## PERSONAL STATEMENT

An aspiring Front-end developer/Web Developer taking a further interest into focusing on JavaScript frameworks such as React. Being able to pick up new systems quickly and providing important developments, helped to further improve my personal growth and commercial experience as a developer. Through the combined experience from studying, self-learning and my current role has created a passion to gain more skills to be used in various projects.

## EMPLOYMENT HISTORY

### BTC Activewear Ltd- Front-End Developer (June 2021- Current)

- Being proficient in HTML, CSS & JS to make everyday changes to the website and make them live.
- Creating and maintaining new updates to their new website for their home brand.
- Always being attentive to detail, testing new developments for me and my team as well as testing for device responsiveness.
- Utilising SQL to handle data and any data exports for customers.
- Using excellent communication to help deliver customer support to users- errors, FTP, custom website & digital catalogues, and any other queries they have.
- Being able to collaborate as a team on projects such as working with creative/marketing.
- Attend weekly meetings to be made aware of current projects and provide input on any ongoing projects in my team.
- Conducting monthly reports relating to web data.

### Birmingham City University-Employability Administrator (September 2019 - September 2020)

- Demonstrated analytic skills through using Google Analytics to gather useful data to help contribute to a project reviewing the Career's Website.
- Utilised my problem-solving skills to solve any issues/errors on the website through the content management system making sure there are no errors and correct content.
- Maintaining social media and delivering digital marketing- Making/Designing posters, emails etc.
- Upheld excellent organisation skills through my administration duties, such as managing the reception, handling any queries, or helping to organise events/adding opportunities to the website.
- Helped take photos for any events going on to be used as well as recording and editing videos to be used by multiple teams.

#### Maplin-Sales Advisor (August 2017- January 2018)

- Gained excellent customer service skills always helping customers get what they need or more as well as being friendly with them.
- Built well-developed communication skills working with my colleagues and helping provide customers with the correct solution.
- Used my initiative when having to do tasks such as building toys for collection such as ride on cars.

#### Wilko-Merchandiser (December 2015- May 2016)

- Utilised managing workloads efficiently and time management skills well by ensuring stock got put out in the right places and helped with deliveries before the store opened.
- Made sure health and safety standards were always maintained.
